International E-Billing Conference
Brussels, 28 & 29 February 2008

The challenge of evolution*

*connectedthinking

PRICEWATERHOUSECOOPERS 

The challenge of evolution*

The framework for seamless cross-border trade and administrative settlement is largely in place and is helping European and global businesses to adopt more cost-effective and efficient practices.

After a successful first edition of the International E-Billing Conference two years ago (*the next step beyond the legal framework), we decided to invite you again and share the knowledge we gained in the last two years while advising several of our clients with multi-country projects in digitisation and automation within European and global businesses.*

Over the past two years, we have been involved in setting up compliant (Electronic) Invoicing processes, archiving modules, automated accounting and ERP systems and the framework for internal control.

At this conference, you will hear about E-Invoicing and E-Archiving issues for all European and global businesses, and the considerations that need to be taken into account when adopting these processes. Clearly, attention will also be paid to related domains such as ERP and internal controls.

We will also provide you with adequate opportunities to network with other companies looking to adopt E-Invoicing and E-Archiving and with experts from the European Commission or from other European VAT authorities, and to meet representatives of our own PricewaterhouseCoopers Global (E-)Invoicing & (E-)Archiving Network.

Agenda

Thursday, 28 February 2008

9.00 - 9.30 hrs
Registration & coffee

9.30 - 10.00 hrs
Welcome & setting the scene

*Marc Joostens,
Leader PwC Global (E-)Invoicing & (E-)Archiving
Network, PricewaterhouseCoopers*

10.00 - 10.30 hrs
A country's perspective - Denmark: Peter L. Borresen, IT-architect for the National IT and Telecom Agency will present the success story for E-Invoicing in the Danish public procurement environment.

Peter L. Boressen, IT-architect for the National IT and Telecom Agency

10.30 - 11.00 hrs
Standardisation: In his role at GS1, Stef Spaan's daily activities are to do with "standards". During his presentation, Stef Spaan will elaborate on the need for companies to standardize. He will also give an overview of the benefits that E-Invoices can bring.

Stef Spaan, Senior Advisor, GS1

11.00 - 11.30 hrs
A business perspective - DHL: Brian Thumwood, E-Billing Program Manager at DHL, will present the case story of how DHL moved to E-Invoicing. He will explain the implications of moving to E-Invoicing in an international environment, highlighting the background, the strategy approach and the opportunities it created.

*Brian Thumwood,
E-Billing Program Manager, DHL*

11.30 - 11.45 hrs
Coffee break

11.45 - 13.00 hrs

Network, PricewaterhouseCoopers*

17.30 hrs
Cocktail reception

Agenda

Friday, 29 February 2008

Customised one-hour meetings

Attendees of the second International E-Billing Conference are offered a one-hour meeting, free of charge, with members of PricewaterhouseCoopers. During this one-on-one meeting, companies can discuss their process improvement projects or ideas (with respect to E-Invoicing and E-Archiving, ERP, internal controls, etc.).

Break-out sessions

You can attend 2 of the break-out sessions

SESSION 1:
Accounts payable

- Impact of E-Invoices on the accounts payable process
- VAT aspects
- Operational aspects
- Accounting and ERP aspects
- Automating the accounts payable process
- Transforming the accounts payable process

SESSION 2:
Accounts receivable

- Impact of E-Invoices on the accounts receivable process
- VAT aspects
- Operational aspects
- Accounting and ERP aspects
- Automating the accounts receivable process
- Transforming the accounts receivable process

SESSION 3:
Shared service centre

- Outsourcing your E-Invoicing process, your archive and your accounting system
- What rules to follow from a VAT, accounting and legal point of view?
- How to keep abreast of any changes in the relevant legislations for a shared service centre

SESSION 4:
Electronic invoicing and archiving technology

- What is currently available on the market?
- Are there any evolutions towards the future?

SESSION 5:
E-Auditing

- How to be organised in case of an electronic audit by the authorities?
- Relevant Guidance Notes from the OECD
- Standard Audit File for Tax (SAF-T)
